

Typical Window Measuring & Ordering Instructions

Windows can be ordered as either **Rough Opening** or **Tip To Tip (TTT)** sizing. It is important to properly indicate which measurement is being provided upon ordering. Sizing can be provided in both Feet or Inches, Likewise, it is important to properly indicate which method is being provided when ordering. Do not provide orders using other manufacturer's call sizes. **We will not convert other manufacturers call sizes to valid sizes.**

Sizing – Northeast is capable of manufacturing windows to the quarter of an inch. Please round your sizing up or down to the nearest $\frac{1}{4}$ " when submitting orders. We can make to: $\frac{1}{4}$ ", $\frac{1}{2}$ ", $\frac{3}{4}$ " or full inch.

Rough Opening – is the space to where the window is to be installed. Your Rough Opening measurements should not exceed the actual window dimensions by more than $\frac{1}{2}$ ". If windows are ordered as Rough Opening, **WE WILL** make standard deductions on your sizing provided. The below chart is the standard deductions for each window type. All replacement windows are shipped with a $\frac{1}{2}$ " head expander & snap in sill adapter.

| Type | Deduction |
|---|--|
| Double Hungs, Sliders, & Picture Windows | $\frac{1}{4}$ " In Width – $\frac{1}{2}$ " in Height |
| Casements, Awnings, Bays, Bows, & Gardens | $\frac{1}{4}$ " in both Width & Height |
| Patio Doors | $\frac{1}{2}$ " In both Width & Height |

Tip To Tip (TTT) – Northeast can manufacture units to the exact desired dimensions. When units are ordered using Tip To Tip Sizing, there will be **NO** deduction made. We will manufacture to the exact size listed. When ordering Tip To Tip Sizing, make sure to leave ample space for proper installation.

For more information regarding proper measuring, please see our measuring guide document.
